

# Pallecon ComboPro

Nestable Bin for Meat and Poultry

- Low tare weight and nestability makes the ComboPro very competitive with traditional expendable combo bins
- CHEP Service Centers located throughout North America provide logistics and inventory management support
- Elimination of ribs, pockets, crevasses, hinges and rough surfaces allow for a high level of cleanability and sanitation
- Liner bag retention in bin
- Compatible with existing dump equipment
- Durable, stackable and edge rackable
